```java
1 package static_variable;
2 class Animal{
3  public  void Sound() {
4   System.out.println("Animal Sounds");
5  }
6
7 }
8 class Dog extends Animal{
9  public  void Sound() {
10  System.out.println("Bow Bow");
11 }
12
13 }
14 class Cat extends Animal{
15  public  void Sound() {
16  System.out.println("Meow Meow");
17 }
18
19 }
20 public class dynamic {
21
22  public static void main(String[] args) {
23   Dog d= new Dog();
24   d.Sound();
25   Cat c=new Cat();
26   c.Sound();
27
28  }
29
30 }
31
```
